

Introducing the next generation in scan tools.

Pro-Link iQ™

NEXIQ
TECHNOLOGIES™

Smarter. Easier. Essential.

The new standard in scan tools.

NEXIQ Technologies™ teamed with heavy-duty truck technicians to develop the Pro-Link iQ, the industry's fastest, most advanced scan tool. You'll want to use it. Sooner than later.

Better in every way.

Available iQ Applications

OEM

- Detroit Diesel® DDEC VI
- Detroit Diesel® DDEC III, IV, V
- Detroit Diesel® MBE
- Caterpillar® ACERT™
- Caterpillar® Electronic Engines
- International Engine
- Allison GEN 4, 1K/2K, WTEC, CEC1
- Bendix ABS
- Meritor WABCO Air and Hydraulic
- LMT Ford, GM, and Isuzu

Generic

- HDS J1939 Heavy Duty Standard
- HDS J1708 Heavy Duty Standard
- OBD II Light- and medium-duty trucks

Soon to be released

- International MaxxForce™

Features

- Easy-to-use, common user interface across all OEM applications
- Free trial period for all OEM software
- Software easily updated via the Internet
- Large capacity hard drive for future updates
- Light-weight and durable for the shop area
- 8.4" color screen for use in any light
- Touch screen for easy activation of on-screen tabs
- PC connectivity via USB port
- Can print to most USB printers
- Power from either the vehicle or internal battery for continual use
- 2 USB ports
- 1 compact flash port
- Protective carrying case

NEXIQ Technologies™ asked heavy-duty truck technicians to tell us which diagnostic tools work for them now and which tools they'll need in the future. The technicians, working with NEXIQ™ Engineering and Product Management, helped design Pro-Link iQ, the new standard for diagnostic scan tools.

Pro-Link iQ. You'll want to use it. Sooner than later.
