

SOFTWARE APPLICATION

International® v2.0 Upgrade

Engines

1994–2006
PN 880010u

The Pro-Link iQ™ International® Engines Application v2.0 Upgrade provides reprogramming and diagnostic capability for International® electronic systems. With the combined power of the easy-to-use Pro-Link iQ™ and the functionality of the International® v2.0 Upgrade application, service bay technicians experience unprecedented out-of-the-box productivity.

Supports all pre-EPA 07' International electronic engines.

Prerequisite: To register this software upgrade, you must have previously purchased an earlier version.

Benefits

- Easy to use
