

SOFTWARE APPLICATION

Light and Medium Truck (LMT)

2001–2009
PN 880048

The Pro-Link iQ™ Light and Medium Truck (LMT) software application provides engine, brakes, and transmission diagnostic capability for a wide range of light- and medium-duty trucks. With the combined power of the easy-to-use Pro-Link iQ™ and the functionality of the LMT software application, service bay technicians experience unprecedented out-of-the-box productivity.

Timely updates are available online to ensure the latest versions are always available.
